10/100/1000 Ethernet TAP

Easy 24 x 7 access to your Gigabit Ethernet segments.

Ideal for security applications and anywhere you need non-intrusive, dedicated access to your network links

The 10/100/1000 Ethernet TAP from Datacom Systems provides easy 24x7 access to your Gigabit Ethernet segments.

A convenient DIP switch on the back of the tap can be used to select auto-negotiation at 10/100 or fixed speed and duplexing settings at 1000Mbps. The 10/100/1000 Ethernet Tap's fault tolerant design will help ensure that network performance and integrity will not be affected by power loss.

- Permanent In-Line access to 10/100/1000 Ethernet links- eliminates the need for network connectors to be disconnected and connected each time a segment needs to be analyzed or monitored
- Redundant power supply insures seamless monitoring even if the main power source is unavailable
- Ideal for Security and Monitoring applications
- View ALL seven layers of network traffic
- View ALL traffic on both sides of full duplex links
- Comes with convenient built-in rack-mount or use an optional rack-mount package to mount 3 units (at 1U) and up to 14 units (at 4U).
